

CARE

SETTLERS
LIFESTYLE VILLAGE

The highest standard of care

Our caring, supportive nurses are on-site around the clock, with 24/7 emergency response available.

Living at Settlers and Fairview Lifestyle Villages you'll have the independence you've always known but with the peace of mind knowing you have preferential access to private hospital care at Fairview Care, part of the Premier Lifestyle Villages group.

We have registered nurses living at both villages to support residents to change dressings, administer blood pressure checks, and more.
